

# Imagine increasing your revenue, market share and profit, and reaching the network of Canada's leading trade and industry association.

You don't have to imagine anymore – that's the return on Canadian Manufacturers & Exporters' Member Supplier program – now you can profit by association.

More than ever, our members – Canada's leading manufacturers and exporters – need solutions to help grow their businesses which means they must be ready to compete in the global arena. As manufacturers and exporters travel around the world looking for new market opportunities, they are relying on CME to find innovative ways to save them money.

That's why CME developed our Member Supplier program. The program has three levels – preferred, official and exclusive – each level is designed to not only provide CME members with a unique, customized service, but to increase our supplier's market share via value-add networking and marketing opportunities.

As a recognized supplier, CME's innovative partnership team will work with you to:

- help you develop relationships with key manufacturers and exporters across Canada
- customize a supplier marketing program that meets your needs
- differentiate your services and products from those of your competitors
- increase your brand visibility

In 2010, be innovative with your marketing budget – invest with CME, grow your business while helping Canadian companies become more competitive.

Contact Jeff Brownlee today to learn how you can qualify for this premier program. He can be reached at 613-238-8888 ext. 4233 or [jeff.brownlee@cme-mec.ca](mailto:jeff.brownlee@cme-mec.ca).
